## PROJECT : SOLAR FARM

We're pleased to update you on the continued progress of our Tawau project. Over the past month, we've achieved important milestones that bring us closer to our objectives:

- PV module installation : Enhancing our capacity to generate solar power.
- Lightning arrester installation : Safeguarding our infrastructure against electrical surges.
- Drainage system installation : Improving site water management for greater efficiency.

Our team remains dedicated to advancing this project, and we're excited to share more developments with you in the near future.
